Mr. James Liu
SeabuckWonders
238 W. 31st Street
Chicago, IL 60616

Dear Mr. Liu,

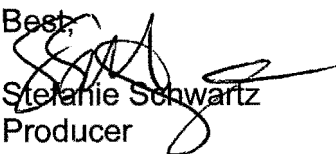

Thank you and your team for helping to make **THE NEW MIRACLE BERRY: SEA BUCKTHORN** on THE DR. OZ SHOW a great success!

Your quick turnaround in securing the sea buckthorn plants and berries for this segment was invaluable. And, I truly appreciate the photographs of the plants, the SeabuckWonders product samples and the background information and medical studies from around the world you provided.

On the show, Dr. Oz discussed how sea buckthorn has been shown to improve the appearance of skin, aid in digestion and even influence weight management. This novel and exciting information was very well received by our viewers; and, for that – I thank you.

I look forward to working together again.

Best,

Stefanie Schwartz
